

**P1**- ac case of an amplifier circuit is given in the figure. P1a- Find mid-band gain.(10P)

P1b- Find low frequency region poles.(10P)

P1c- Find high frequency region poles (use Miller method for the feedback capacitance).(10P)

P1d- Draw the magnitude and the phase of gain versus frequency. Show cut-off frequencies for low and high frequency regions.(10P)

Anlg Elektronik DevrGuz13-YI1 Adi:	Soyadı:	No:	
Dikkat: Cevapiarınızı sadece soru altlarındaki boşluklara yapacaksınız.		İmza:	

S1b- Devrenin frekans cevabının alt frekans bölgesinin kutup değerlerini bulunuz.(15P)

S1c- Devrenin frekans cevabının üst frekans bölgesinin kutup değerlerini bulunuz.(15P)

Miller ethis
